

ABC Clinic is Opening!

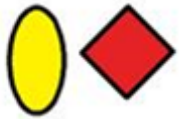

I will go to the ABC Clinic.

I will see my teachers and friends.

To protect myself and others from germs or getting sick, I will do things

differently at the ABC Clinic.

I will wear a mask. My teacher will wear a mask. My friends will wear a

mask.

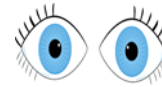

I will wash my hands before entering and after leaving my therapy

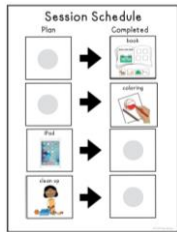

room.

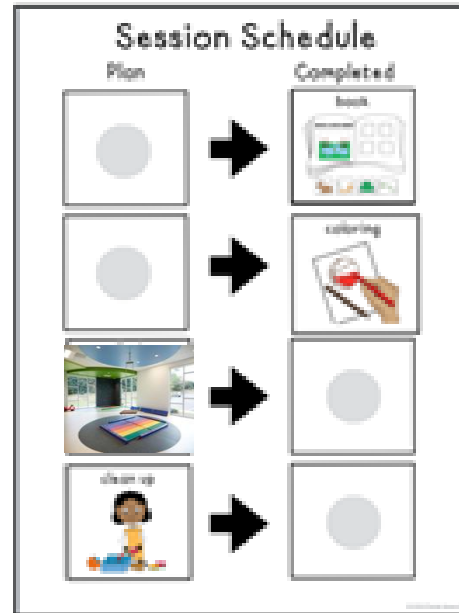

I will take turns in the gross motor room, activity room, playground,

and community rooms. My teacher will show me when I can visit on my

schedule.

I will not eat in the cafeteria, I will eat in my therapy room.

I will see my friends, but I need to put space between myself and my

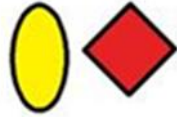

friends. My teacher will help me remember what to do.

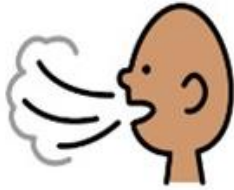

I can say hi to my friends by waving, bowing, or air high fives.

Doing things differently can be frustrating.

I can take deep breaths, count, or ask for a break if I am very frustrated.

The End!
