

Financial Aid Application

In order to ensure that your child's financial aid application is considered, please read the following guidelines carefully before completing the application:

- 1. Attach a copy of your most recent federal tax return (form 1040), submitted within the last 18 months, for every member of your household who filed, including children, showing income and expenses reported to the Internal Revenue Service. If you are exempt from filing, based on IRS requirements, you must attach document(s) showing ALL annual income for the last 12 months [e.g. social security statement(s), unemployment wage summary(ies), etc.] for every member of your household. If your employment situation has changed since the completion of your most recent tax return, you must provide formal documentation from an employer, former employer, the social security administration, or other official representative.**
- 2. All parent(s)/legal guardian(s) must sign the signature line(s) on page 3.**
